

Shuttle Accessory POR01 Serial Port Adapter for POS01

The Shuttle All-in-One PC X50V4/X50V5 can be equipped with the optional accessory POS01, which is an extension kit with four serial ports (2x D-Sub and 2x RJ45), one parallel port and an RJ11 DIO port for cash drawers. With the help of the adapter cable POR01, the RJ45 ports can be converted to the 9-pin D-Sub standard, which is the traditional connector for serial devices.

Shuttle Accessory **POR01**

RJ45 connector

9-pin D-Sub connector

Accessory POR01
